HOW DO YOU DO THAT?

WORKFLOW MANAGEMENT
• Built-in waste code, Consignor, Carrier, and Consignee details to reduce human error.
• Pre-built digital copies of recommended regulatory forms
• Built-in workflows.

EASY RECONCILIATION
• Real-time visibility into volumes delivered to Consignees and waste manifests status at any stage in the process

AUDITABLE REPORTING
• Digital repository of all documents and their status accessible at any time.
• Suite of reports designed to allow users at any level to keep tabs on operations and identify issues.

COMPLIANCE AND CONTROL. MADE EASY. Remain compliant in the transportation of goods from origin through to destination.

PAYLOAD™

MANIFEST

Compliance and Control. Made Easy. Remain compliant in the transportation of goods from origin through to destination.

FORMS

• AER WASTE MANIFEST
• BC MOVEMENT
• TDG
• BILL OF LADING
• NON-REGULATED / NON-DOW
• FEDERAL MOVEMENT DOC

Payload is a logistics software platform that connects companies and service providers giving them the tools they need to optimize transportation activities and maintain regulatory compliance.
HERE’S HOW IT WORKS

CHOOSE FROM A CUSTOMIZED BUILT-IN LIST OF CONSIGNOR LOCATIONS.

1. CHOOSE THE WASTE BEING TRANSPORTED.
2. CHOOSE YOUR CONSIGNEE.
3. CHOOSE YOUR CARRIER.
4. CHOOSE YOUR CONSIGNEE.
5. CONSIGNOR ADMIN COMPLETES MANIFEST.
6. ONCE YOU ARRIVE ON SITE, CONSIGNEE CONFIRMS PRODUCT.

BENEFITS

STREAMLINED WORKFLOW
- Save time and money by quickly generating manifests.
- Dramatically reduce manual entry effort filling and distributing forms.
- Digital repository of all forms makes it simple to prepare for audits.
- Ability to clone existing forms to further reduce effort for regular shipments.

VISIBILITY & CONTROL
- No more product classification issues.
- Easy to reconcile volumes transported.
- User customizable back end, meaning form filling options are relevant to your operations.
- Quick access to key documents.

CORPORATE SUSTAINABILITY
- Helps maintain your Environmental, Safety and Governance commitments.
- Reduction of paper usage.
- Ensure accurate and consistent manifest documentation and classification across your organization.
